

CPD and Training Opportunities for Trainers

This quarterly publication provides details on some of the local and national CPD and training opportunities that are on offer to trainers across NHS Wales to assist them in meeting the CPD requirements of their trainer role. The opportunities are listed in date order within each organisation. If you have any queries regarding any of the events advertised, please contact the relevant person listed for that event. Please note that although many of the events are organised by a particular LEP, many of them are open to all trainers in Wales. Please contact the relevant organiser for further details.

Health Education and Improvement Wales (HEIW) would like to thank Local Education Providers, and Cardiff and Swansea University's Medical Schools for developing and delivering CPD opportunities for trainers at a local level, and for their assistance in creating this publication.

The next publication is due for release in mid-October 2019. If you are aware of any CPD opportunities that could be included in this publication, please email them to the Quality Unit at heiw.sre@wales.nhs.uk by early October 2019.
